1. What is the most state that work from home?

Link:

https://public.tableau.com/app/profile/mohamed4133/viz/Book1345_16443574099110/workfromhome?publish=yes

Summary:

As we can see that the most states that work from home:

- Texas

- Nebraska

- South Dakota

Design:

I have used circle views with blue color to become clear for color blinded people.

Recourses:

Is there is a correlation between poverty and unemployment?

Link:

Summary:

As we can see from the dashboard that Texas, Georgia and Puerto Rico have highest rates in both poverty and unemployment rate so the result shows a proportional relationship between poverty and unemployment. Accordingly, it is recommended to increase spending on education.

Design:

I have used bar chart to make the comparison easy and it is with blue color to become clear for color blinded people.
